

Canvas for Students

Canvas is an online learning program that makes learning easier. It's intuitive, collaborative, and you can access it anytime, anywhere, on any device.

Step 1: Login

Getting to Canvas is easy. Just look for the canvas login button on the school or district website or visit:

canyons.instructure.com

Your username and password is the same as the one you use to access the computers. Refer to the image to the right for help.

NOTE: Remember to ALWAYS protect your personal information, like your student number and password.

Student Log-In Information

First Name: Last Name: Student Number:

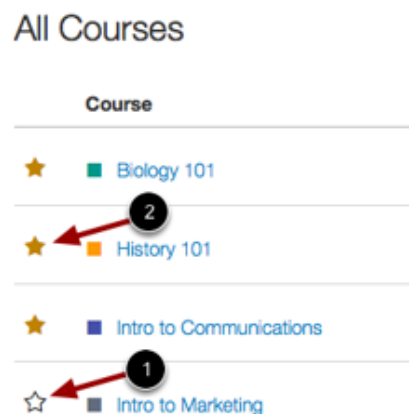

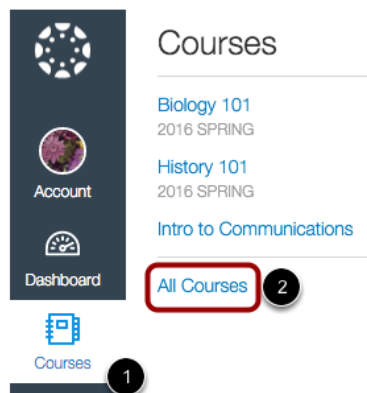

Username:

Step 2: Find your Classes

All of your classes that have been published (made available to you by your teachers) can be found by clicking on Courses (1), then All Courses (2).

Click the yellow star to remove last year's courses as a favorite (1), and click the white star next to the courses for the current year to show up on the Canvas dashboard when you login to Canvas.

Once you select a class, most of your class instructions and assignments can be found in the "Modules" tab at the left of the screen.

Step 3: Set up Notification Preferences

Click on the Account tab at the top left, then select Notifications. At the right of the screen, you can add an email address or cell phone number so message and alerts from Canvas will reach you when and where you want them.

Changing your notifications will let you stay up to date with the course and your assignments. You can select the frequency: 1: ASAP, 2: daily, 3: weekly, or 4: never.

Check with your teachers if you are unsure about how to set up your notifications.

NOTE: Your Notification Preferences will affect ALL of your classes.
